The trial run of the newly opened inland river route from Daudkandi in Bangladesh to Sonamura

in Tripura was successfully completed . The newly opened 93 kilometers long route on the river Gumti marks another major step in enhancing connectivity between India and Bangladesh.

Germany joins Indo-Pacific club aimed at securing trade routes from aggressive China

Germany has joined the Indo-Pacific club. The move is aimed at securing the trade routes from aggressive China. Germany has drafted a 40-page guidelines as it formally adopts a strategy for the Indo-Pacific region. The move makes it the second European nation after France to formally adopt a strategy for the Indo-Pacific region.

RBL Bank offers cardless cash withdrawal facility through ATMs

RBL Bank has launched cardless cash withdrawal facility for customers through the IMT System. RBL Bank has tied up with Empays Payment Systems, a global financial technology provider, to offer the service. RBL Bank customers can withdraw cash without their debit cards from 389 IMT-enabled ATMs of RBL Bank. To avail the service a customer has to log into RBL Bank's MoBank app.

Chandrayaan-1 reveals presence of rusty minerals on Moon's surface

MoS Space Jitendra Singh said that ISRO's maiden mission to the Moon has sent images, which show that Moon may be rusting along the poles. The sign of this finding is that even though the surface of the Moon is known to have iron - rich rocks, it is not known for the presence of water and oxygen, which are the two elements needed to interact with iron to create rust. NASA say that this could be because the Earth's own atmosphere is lending a helping hand which, in other words, means that the Earth's atmosphere could be protecting the Moon as well.

IIT Guwahati researchers design engineered surfaces to detect, prevent covid-19

Researchers at the Indian Institute of Technology (IIT), Guwahati have developed methods to detect and prevent the novel coronavirus using bio-interface interactions between the virus and the surface spike protein.

China's 1st reusable spacecraft lands after 2-day flight

China's first reusable spacecraft landed Sunday after two days in orbit, a possible step toward lower-cost space flight, the government announced. The secretive, military-run space program has released few details of the craft, which was launched Friday aboard a Long March 2F rocket from the Jiuquan Satellite Launch Center in China's desert northwest. The craft landed as planned at Jiuquan.

Chandrayaan-3 launch likely in early 2021

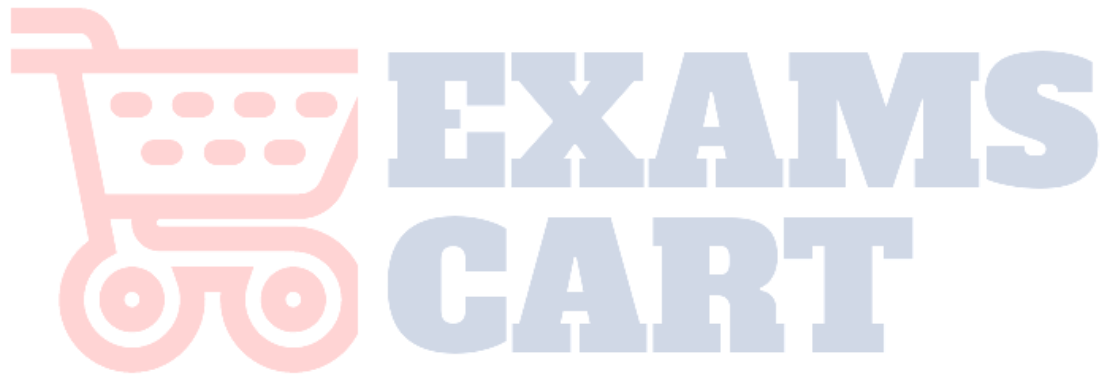

Minister of State for Space Dr Jitendra Singh said that the launch of Chandrayaan-3 may now take place somewhere in early 2021. Chandrayaan-3 will be a mission repeat of Chandrayaan-2 and will include a Lander and Rover similar to that of Chandrayaan-2, but will not have an orbiter.

Serena Williams wins in US Open Tennis Tournament

In the US Open tennis tournament, Serena Williams won in straight sets again. She moved into an all-American showdown against Sloane Stephens.

World Cup host Qatar set to play in Gold Cup next year in US

World Cup host Qatar is set to play in the Gold Cup next year in the United States after accepting an invitation from soccer's governing body for North and Central America and the Caribbean. The Asian Football Confederation issued a statement today saying the Asian Cup champion will participate in the 2021 and 2023 Gold Cup tournaments as a guest under a memorandum of understanding signed in Bahrain in 2017.
